

SIDDHI KISHOR SHINDE

Business Analyst | Technical BA | IT Process & Systems Analyst
Nashik, India | 9766176573 | siddhishinde38@gmail.com | [LinkedIn](#) | [GitHub](#)

Open to Relocate: Mumbai | Pune | Bangalore

PROFESSIONAL SUMMARY

Results-oriented professional with 1.8+ years of experience in full-stack software development, now transitioning into Business Analysis. Skilled in gathering technical requirements, designing data-driven solutions, and collaborating with cross-functional teams to deliver client-focused products. Hands-on experience building dashboards, optimizing workflows, and automating business processes — reducing manual effort by 80% and improving system performance by 35%. Strong technical foundation in APIs, databases, and Agile methodologies, enabling effective communication between business stakeholders and development teams.

CORE BA COMPETENCIES

- Requirements Gathering & Documentation
- Stakeholder Communication & Management
- Business Process Analysis & Improvement
- Agile / Scrum Methodology
- User Story Writing & Acceptance Criteria
- Data Analysis & Reporting Dashboards
- API Understanding & System Integration
- Workflow Automation & Optimization
- Gap Analysis & Root Cause Analysis
- Database Querying (MongoDB, MySQL)

WORK EXPERIENCE

Business & Technical Analyst (Developer) | Paarsh InfoTech | Nashik

November 2024 – Present

- Collaborated directly with clients and product teams to gather requirements and deliver data-driven dashboards, translating business needs into technical specifications
- Analyzed and optimized system workflows, reducing page load time by 30% (from ~4s to ~2.8s) through database and API improvements
- Participated in Agile sprint planning, wrote technical documentation, and conducted code reviews to ensure quality and alignment with requirements
- Developed reusable UI components and RESTful integrations — acting as bridge between design, product, and engineering teams

Process & Systems Analyst (Intern) | Ftcash (Nomisma Mobile Solutions) | Mumbai

July 2024 – October 2024

- Identified and automated a critical manual PDF document generation process, eliminating ~80% of manual operational work and saving 10+ hours per week
- Analyzed fintech system performance issues, resolved production bugs, and improved overall system stability by 35%
- Built a Job Application Dashboard with advanced search, filtering, and pagination — directly based on stakeholder feedback and user requirements
- Worked closely with operations and engineering teams in a fast-paced fintech startup serving thousands of merchants across India

KEY PROJECTS

AI Meeting-to-Marketing SaaS Platform — Business Problem: Converting meeting transcripts to marketing content manually was time-consuming

- Defined system requirements and user flows for an AI platform that automates conversion of meeting transcripts into structured marketing content

- Designed authentication, dashboard, and content management workflows — mapping end-to-end user journeys
- Integrated OpenAI API for NLP processing, enabling brand-consistent daily social media generation

Agriculture Inventory Management System — *Business Problem: Manual inventory tracking caused errors and delays for agricultural businesses*

- Gathered requirements from stakeholders and designed role-based access control (RBAC) for admin and staff users
- Delivered real-time analytics dashboards for stock management and product reporting, improving operational visibility

SKILLS & TOOLS

BA Tools	Requirements docs (BRD/FRD concepts), User stories, Process mapping, Dashboard design
Data & DB	MongoDB, MySQL, Database query optimization, Reporting & analytics
Technical	REST APIs, Postman (API testing), Agile/Scrum, Git, CI/CD awareness
Platforms	Google AI Studio, OpenAI API, VS Code, GitHub
Languages	JavaScript, TypeScript, basic PHP, basic Java

EDUCATION

B.E. – Information Technology

Savitribai Phule Pune University, Nashik
2019 – 2022 | CGPA: 7.5

Diploma – Information Technology

NDMPV Polytechnic, Nashik
2015 – 2019 | 67.9%

CERTIFICATIONS

Full Stack Java Developer — Imarticus Solutions, Pune **Python Programming** — Udemy **Diploma in Java** — FirstBit Solutions, Pune
